Re: Henderson County Additional Groundwater Assessment
Henderson County Landfill, Permit #45-01

Dear Mr. Jones:

The Solid Waste Section has reviewed the *Henderson County Additional Groundwater Assessment* submitted on March 26, 2008 on behalf of Henderson County by CDM for the closed Henderson County Landfill. The *Henderson County Additional Groundwater Assessment* consists of installation of a nested pair of groundwater monitoring wells (AMW-2s and AMW-2d)) and sampling of groundwater monitoring wells MW-1, Old MW-1, MW-2, and Old MW-2. These groundwater monitoring wells are currently not part of the compliance monitoring network because of their close proximity to the edge of waste. As a result, the *Henderson County Additional Groundwater Assessment* is approved as described. Please call me at 919-508-8500 if you have any questions or concerns regarding this correspondence.

Sincerely,

Jaclynne Drummond
Hydrogeologist
Environmental Compliance
